College – Mathematics and Informatics, HCC, Alba Iulia

2009 - 2013

HOBBIES & PASSIONS

- **Camping and hiking** – I have been a scout since I was young and I grew up with the love for the trails, seeking not only the destination, but enjoying the time spent in nature.
- **Music playing** – It all started with Californication being played at a campfire in 2008; I then bought my first guitar, then a drum set, then another three guitars and two ukuleles. I have played in three bands and I was a self-taught musician, learning from YouTube videos and tutorials.
- **Barbering** – It always puts a smile on my face when I see a transformation in someone's look from neglectful to slick and well groomed. This was as well a self-taught skill, acquired from YouTube videos, especially from The Salon Guy's videos and tutorials.
- **Gaming** – It all started with Age Of Empires II by building my citadel and trying to defend it by conquering others. However, I now find myself interested in story driven titles with lots of lore, such as Fallout, Far Cry and Assassin's Creed.
